

NJHA's Partnership for Patients

**Prevention of Healthcare Associated Infections across
Healthcare Settings**

Date: Dec. 5, 2013

Program: 8:45 a.m. – 12:45 p.m.

Registration and Breakfast (*optional*) 8:00 a.m. – 8:45 a.m.

Location: NJHA Conference and Event Center

760 Alexander Road, Princeton, NJ 08543

Healthcare-associated infections (HAIs) are a common cause of morbidity and mortality in the United States and are among the most common adverse events in healthcare. In addition to significant pain and suffering, HAI's impose significant economic consequences on the nation's healthcare system. This learning session aims to discuss the current status of HAI's including multi-drug resistant organisms (MDRO) and C. Difficile Associated Disease (CDAD).

At the conclusion of this activity, participants should be able to:

- Discuss current status and burden of disease related to MDRO and CDAD infections
- Define evidence based prevention measures in both acute and ambulatory care settings and
- Identify safety strategies healthcare organizations may implement during disaster situations

NJHA's Partnership for Patients
**Prevention of Healthcare Associated Infections across
Healthcare Settings**
