

Need Health Insurance? We've Got You Covered

Health insurance is essential for good health. It covers you – and your family – for preventive care including checkups, well child visits and immunizations as well as illnesses and accidents. Health insurance also can protect you against a big medical bill – not to mention that New Jersey law requires most adults to have health insurance or face an extra fee on their income tax filings.

New Jersey's Affordable Health Coverage Options

- **NJ FAMILYCARE** (which includes Medicaid and the Children's Health Insurance Program). Sign-ups for NJ Family Care are open year-round for those who meet eligibility requirements.
- **THE GET COVERED NJ** online marketplace. There are only a few months each year when anyone can buy insurance through the online marketplace (called the "open enrollment period," typically November through January). But if you've experienced a life event that has affected your current insurance, like marriage, a new baby or a job change, you may be able to sign up through www.nj.gov/getcoverednj/.

Need help understanding your options? Our veteran navigators are here to help with free, confidential enrollment assistance. Visit www.njha.com/COVERNJ or call 877-4CARENJ to learn more.
