Welcome to NJHA's Best at the Beach 2024

What a pleasure to celebrate the people, programs and healthcare organizations whose goal is pure and simple: take good care of people. Our 2024 Best at the Beach honorees exemplify that commitment.

We invite you to flip through these pages and meet these caring, talented individuals who were nominated by their colleagues and selected by industry peers as healthcare's shining stars. Each one has had a tangible impact in improving the lives of New Jerseyans and ensuring that our state is recognized among the best in the nation for healthcare quality, access and equity.

There are 155,000 of these caring professionals in our hospitals alone – plus the thousands more sharing their skill and compassion in residential care facilities, outpatient centers, in individual homes and in communities and neighborhoods up and down our state. We salute each and every one. I think we can speak for our fellow New Jerseyans when we say, you're the best!

SPECIALIZED ACUTE CARE. EXCEPTIONAL OUTCOMES.

For medically complex patients, decisions about the next level of care are critical.

While most patients in the hospital will be able to advance to a lower level of care within a few days, those with complex conditions may need additional time to recover in an acute care setting. That's where we come in.

At Kindred Hospitals, our physician-led care teams provide critically ill patients with the specialized care they need, for the time they need it – improving outcomes and reducing readmissions.
