Verizon One Talk: The easiest call you'll ever make

Accelerate customer service

Leverage Verizon One Talk to integrate mobile devices, desktops and Verizon-provided smart desk phones to empower your employees. Enable them to stay connected across devices: helping to improve responsiveness, customer service and business continuity.

Boost productivity

With advanced calling features and centralized management you can reduce barriers to communication and drive increased speed and productivity across your organization.

Consolidate and converge systems

One Talk is a no-fuss replacement. It needs no additional wiring or network or internet settings changes. Use it to replace systems nearing end-of-life, consolidate vendors and help manage maintenance costs.
